Annual General Meeting 2021

In view of the extraordinary situation due to the COVID-19 pandemic, INVISIO's Annual General Meeting on April 28, 2021 will be conducted through advance voting (postal voting). No meeting will be held allowing attendance in person or by proxy.

Nominating Committee

The main function of the Nominating Committee is to present proposals to the Annual General Meeting on the composition of the Board, for approval by the Annual General Meeting. The work of the Nominating Committee starts by studying the evaluation of the work of the Board that the Board has commissioned. The Nominating Committee then nominates Board Members and Chair for the coming mandate period. Furthermore, the Nominating Committee presents proposals for the election of auditor and remuneration to the Board and auditors.

Composition of the Nominating Committee

In accordance with a resolution of the 2017 Annual General Meeting, INVISIO's Nominating Committee must be composed of the Chair of the Board and a representative of each of the three largest shareholders in terms of voting rights. The members of the Nominating Committee and the shareholders appointing them are presented in the table below. In 2020 the Nominating Committee held three meetings as well as maintaining contacts between meetings.

Before the end of the third quarter, the Chair of the Board shall contact the three largest shareholders of the company, who then each appoint one member to serve on the Nominating Committee. If any of the major shareholders refrain from appointing a member, the Chair of the Board is to invite the shareholder next in size to appoint a member. The analysis of ownership shall be based on Euroclear's list of registered shareholders and on any other circumstances that are known to the Board Chair. In the event that a member voluntarily resigns from the Nominating Committee, the shareholder that appointed the outgoing member shall appoint a successor, provided the ownership structure has not materially changed. If the ownership structure in the company is materially changed the Nominating Committee can decide to change its composition so that the Committee reflects the ownership of the company appropriately. Even if changes are made in the ownership structure of the company, no changes need to be made to the composition of the Nominating Committee where the changes are minor or where a change occurs less than three months before the Annual General Meeting unless it is justified as a result of special circumstances. The member representing the largest shareholder by voting power shall be appointed as chair of the Nominating Committee unless otherwise agreed by the members. However, neither the Chair of the Board nor another Board member shall chair the Nominating Committee.

The Nominating Committee is encouraged to contact both large shareholders that have not appointed a member to the Nominating Committee and representatives of small shareholders, to ascertain their assessments of the matters that concern the Nominating Committee.

As part of the Nominating Committee's work, the Chair of the Board shall report to the Committee on the circumstances surrounding the Board's work, and the need for special expertise, etc., that may be significant to the composition of the Board.

Remuneration of the Nominating Committee

No remuneration is payable to the members of the Nominating Committee.

Board of Directors

The Board of Directors is responsible for INVISIO's organization and management of the company's affairs.

Composition of the Board of Directors

In accordance with the Articles of Association, INVISIO's Board of Directors shall consist of a minimum of three and a maximum of eight members. The Annual General Meeting in 2020 re-elected Annika Andersson, Charlotta Falvin, Lage Jonason, Ulrika Hagdahl, Martin Krupicka and Charlott Samuelsson. Further, Annika Andersson was elected as Chair.

The members of the Board represent a group with technical, commercial and economic knowledge, with experience of business development, growth and internationalization and is well suited and focused on conducting business in all respects in a sustainable way.

The company has applied rule 4.1 in the Code as a diversity policy, which states that the board must have a composition characterized by versatility and breadth regarding the members' competence, experience and background. Furthermore, an even gender distribution shall be sought. The Board consists of four women and two men, which in the Nomination Committee's opinion is compatible with the requirement for an equal gender distribution. For further information on the Board members, please refer to pages 48-49.

The Articles of Association do not include any particular provisions on appointment or dismissal of members of the Board.

Independence of the Board

The composition of the Board meets the requirements of the Code of Corporate Governance concerning independent members. The independence assessments for each member are presented on pages 48-49.

The Board's Work Plan

Every year the Board adopts a work plan for its work. This is done at the time of the inaugural board meeting and the work plan is thereafter updated as necessary. The work plan describes the responsibilities and duties of the Board and its Committees, their internal division of duties and working methods, as well as distribution between the Board and the President/CEO. The current work plan was adopted on May 5, 2020.

The work of the Board

Under the adopted work plan, the Board must meet at least six times in addition to the inaugural board meeting.

In 2020 the Board held eleven meetings, including the inaugural meeting. Standing items at the meetings are the business situation, financial situation and performance monitoring. Important matters during the year included business objectives, strategic focus, R&D initiatives and organization as well as acquisitions. The attendance of the members at the meetings is shown in the table below.

INVISIO's CEO and CFO regularly participate in Board meetings. Other senior executives participate in the Board meetings if necessary as presenters. The company's CFO normally acts as presenter at the Board meetings.

Evaluating the work of the Board

According to the Board's Work Plan, the Chair of the Board is responsible for ensuring that the Board's work is evaluated each year in a systematic and structured process designed to develop the Board's work forms and effectiveness. For 2020 evaluation took place partly through a questionnaire that was compiled by an independent party, and partly through separate interviews with all members of the Board conducted by the Nominating Committee. These interviews were conducted by Simon Vesterby Kold, representing Novo Holdings A/S, Elisabet Jamal Bergström, representing SEB and Lennart Franke, representing Swedbank Robur Fonder.

Internal control and risk management referring to financial reporting

Internal control and risk management referring to financial reporting is a central component of INVISIO's corporate governance. The process aims to provide reasonable assurance concerning the reliability of interim reports, year-end reports and annual reports and to ensure that these reports are prepared in accordance with applicable laws, accounting standards and other rules.

INVISIO's risk management and internal control are based on the Internal Control – Integrated Framework issued in 2013 by the Committee of the Sponsoring Organizations of the Treadway Commission (COSO). According to COSO, internal control is a process with the following components: control environment, risk assessment, control activities, information and communication and monitoring.

Control environment

The control environment forms the basis of internal control and risk assessment within INVISIO and consists of the values and the culture communicated and acted on by the Board and management, as well as the organization structure, leadership, authority, decision-making channels and employees' expertise. This includes several internal policy documents, which have been adopted by the Board. An overview of the company's organization, governance and control, including external and internal policy instruments can be found on page 43.

The Board of Directors has the overall responsibility for internal control and reporting with the task of and responsibility for monitoring INVISIO's financial reporting and monitoring the effectiveness of this process. See previous page under the heading "Audit Committee" for more information.

Risk assessment

The Board has delegated the operative responsibility for risk assessment and internal control to the management group. INVISIO's management group conducts annual systematic risk assessments. This means that the company management assesses the risks that are removed or added, as well as selecting prioritized processes. Process descriptions are prepared as decision-making data for the Board. They include information on the purpose, risks, controls and effectiveness of the process.

The company's risk management is described further in the Administration Report and in Note 2.

Control activities

In accordance with the internal control policy, the CFO is responsible for coordination, management and follow-up of internal control, including financial reporting. The CFO, together with the accounting department and others, is to ensure that process descriptions and internal frameworks are prepared and be responsible for reporting on the work concerning internal control and risk management in INVISIO to the Board and the Audit Committee.

To ensure good internal control concerning financial reporting, the company has established control activities for each main process, aimed at preventing, discovering and correcting errors and non-compliance. Among the areas of control are approval of business transactions, reliability of business systems, compliance with laws and other requirements placed on listed companies, segregation of duties, application of accounting standards and other areas that include material elements of assessment.

Information and communication

The Board of Directors has drawn up an information policy for external provision of information that is to ensure that the market receives relevant, reliable, correct and current information on the development and financial position of the company. The Board has also drawn up an insider policy aimed at safeguarding the integrity of information provided.

The company's internal policy instruments in the form of policies, guidelines and manuals for internal and external communication are regularly updated and communicated internally via relevant channels, such as intranet, internal meetings, email and the company's document management system.

Monitoring

The CFO has the operative responsibility for monitoring risk management and internal control with respect to financial reporting. This includes monitoring monthly financial reports against targets and plans, monitoring the President/CEO's business reports to the Board and monitoring reports from the company's auditor. In addition the main processes and associated control activities are regularly evaluated to ensure adequacy and effectiveness. The results are reported to the Board and the Audit Committee.

INVISIO has not set up a dedicated internal audit function. The Board of Directors has evaluated the need for this function and concluded that the size of the organization and scope of its activities do not justify such a function.

Events and activities in 2020

During the year INVISIO continued its work of continual improvement of internal control and governance as the business grows and demands increase, for example by means of greater integration and automation of flows in the business system. During the year work intensified to increase IT security.

It is the board of directors who is responsible for the statutory sustainability report for the year 2020 on pages 28-39 and that it has been prepared in accordance with the Annual Accounts Act.

The scope of the audit

Our examination has been conducted in accordance with FAR's auditing standard RevR 12 The auditor's opinion regarding the statutory sustainability report. This means that our examination of the statutory sustainability report is substantially different and less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. We believe that the examination has provided us with sufficient basis for our opinion.

Opinion
