Modern slavery risk assessment

Within INVISIO Communications Ltd, we have concluded that on the basis that we are a UK employer subject to UK employment protections and practices and with the procedures we already have in place and the nature of the roles our employees undertake, we have a low risk of modern slavery within our own operations. We, however, keep this under review.

Within our supply chain we acknowledge that there are higher areas of risk. As a result, we remind suppliers of our Supplier Code of Conduct and inform them of our UK Anti-Slavery laws, to prevent modern slavery occurring in our supply chain. With any new supplier, we undertake due diligence to ensure that they deliver on the high standards we operate to and expect our supply chain to operate to.

Further steps

Looking forward we will continue to take the following further steps to combat modern slavery and human trafficking:

Undertake anti-slavery and human trafficking training where applicable across the INVISIO Group.

Keep our supply chain under review and review all new suppliers on a case-by-case basis.

Keep our due diligence under review and enhance it where necessary.

Monitor any need for further action.

This Statement has been approved by the board of INVISIO Communications Ltd who will review and update it annually.
